PRODUCT SELECTION GUIDE

NOTE:

Many of the products listed on this guide can be customized to work with your specific application. This guide is meant only to suggest products that may be used with a particular roof type or application. In addition, many of the snow retention products are engineered to work with your specific project and conditions. Please contact T.R.A.-MAGE at (800) 606-8980 for more details.

This guide has been developed to suggest the T.R.A.-MAGE products that best suit your application and needs.

To use this guide:

1. Identify your roof type from the columns to the right
2. Follow your column down until it meets up with the desired product and application from the rows below
3. Call T.R.A.-MAGE at (800) 606-8980 to talk with a sales representative about your specific project needs

- = Use for new construction only
- = Use for retrofit or new construction
